

CONFIDENTIAL

PRELIMINARY POLICE INCIDENT REPORT

Case Number: CID-2026-0317-069

Case Classification: Unnatural Death (Under Investigation)

Date Reported: March 17, 2026

Time Reported: 04:12 A.M.

Responding Unit: Criminal Investigation Division (CID)

Lead Investigator: Detective Reiko Sarmiento

I. VICTIM INFORMATION

Name: Arianne Marie Villareal

Pen Name: A. M. Villareal

Age: 28

Sex: Female

Occupation: Author / Self-Published Novelist

Civil Status: Single

II. INCIDENT LOCATION

Location: Unit 317, Lumina Residences

Type of Premises: Residential Apartment

Condition Upon Arrival:

- Main entrance closed.
- No obvious signs of forced entry.
- Apartment generally organized.

- Multiple manuscript pages scattered throughout the living room and writing area.
 - Several electronic devices recovered for forensic examination.
-

III. INITIAL OBSERVATIONS

The victim was discovered unresponsive inside her apartment. Emergency responders confirmed the absence of vital signs upon arrival.

A visible ligature mark was observed around the victim's neck. No obvious defensive wounds were noted during the initial visual examination.

The apartment showed no immediate indications of burglary or robbery.

A published novel authored by the victim, titled "**The Thirteenth Margin**," was recovered from the writing desk and submitted as evidence due to its possible relevance to the ongoing investigation.

The official cause and manner of death remain **pending medico-legal examination**.

IV. EVIDENCE RECOVERED

- Laptop computer
- Mobile phone
- External hard drive
- Fountain pen
- Coffee mug
- Personal notebook and planner
- Business cards and contact list
- Printed manuscript drafts
- Published copy of **The Thirteenth Margin**
- Miscellaneous handwritten notes

All evidence has been properly photographed, catalogued, and secured for forensic processing.

V. PERSONS OF INTEREST

The following individuals and groups have been identified for interview:

- Immediate family members
- College friends
- Former professors
- Editors
- Book reviewers
- Publishing company representatives
- Individuals listed in the victim's personal notebook

At this stage, **no suspect has been formally identified.**

VI. INITIAL INVESTIGATIVE ACTIONS

- Crime scene secured.
 - Scene photographed and documented.
 - Latent fingerprint processing initiated.
 - CCTV footage requested from building management.
 - Digital forensic examination requested.
 - Family notified.
 - Medico-Legal Division requested to conduct a full autopsy.
-

VII. INITIAL ASSESSMENT

Based solely on the condition of the scene, the incident **may initially appear consistent with suicide.**

However, due to several unresolved inconsistencies observed during the preliminary investigation, **no definitive conclusion has been reached.**

The case shall remain **OPEN** pending:

- Autopsy findings
 - Toxicology report
 - Digital forensic examination
 - CCTV analysis
 - Witness interviews
-

INTERNAL NOTE

FOR INVESTIGATIVE USE ONLY

Detective Sarmiento expressed reservations regarding the preliminary assessment of the incident. While no conclusive evidence of homicide has yet been established, the lead investigator recommends that all investigative avenues remain open until the completion of the medico-legal examination and corroborating forensic analyses.
